within the normal income, and the closing balance of Rs amounting to Rs 7,244/- for the current year is above the foreseen bad debt provision

1 The proposals of the D.C are submitted for orders

2 The estimate for Rs 25,500/- has been scrutinized by the Chief Engineer Mr. W. & proposed to be spread over ten years. This is to be financed by the Govt. Colombo Municipality

3 The first stage of the Scheme is the construction of the main drain as estimated at Rs 7000/-. This work is proposed to be taken up & completed in two years the first of the 10 to be meeting the costs in equal proportions. The Govt shares the cost amounting to Rs 17.5% per year on payment of the Govt grant for Town improvement every year

4 The estimate may perhaps be found, the work being spread over a period of 6 or 8 years. 10 years is not a long period

The main drain work may be started first and brought to completion within two years the remaining finances as above. The financial aspect of the Scheme is found for the present

5 The estimate is more than Rs 2,500/- This has to be treated as Council matter

Re Drainage Scheme of Turuvekere Town

Sir,

I have the honour to forward herewith duly countersigned by the President, Municipal Council, Turuvekere, an estimate amounting to Rs 25,500/- in connection with the comprehensive drainage scheme of Turuvekere Town together with copies of letter No 1103 dated 3 2 1942 of the Sanitary Engineer and Letter No A 6C 3213/41-42 dated 9th June 1942 of the Deputy Commissioner, Tumkur District The report design, discharge statement and plans also accompany

The scheme is to be worked out in ten years, as resolved by the Municipal Council, the immediate necessity of the town viz , the construction of the main drains at a cost of Rs 7,000/- being completed in two years and the rest in eight years The Municipality have agreed to bear half the cost of the entire scheme, the other half being met by Government As regards the cost towards the construction of main drains spread over two years, the Municipality have resolved to meet their share out of the Municipal Funds and a sum of Rs 750/- out of investments held in the Savings Bank Deposits during the two years As for the balance of the Municipal quota viz , 9,250/- the Municipality will meet it out of the Municipal funds each year

I request you to be so good as to obtain and convey sanction of Government to the scheme and to the provision of a sum of Rs 1,750/- being the Government share towards the first year's portion of the work in the budget of next year under 30 Grants

I have the honour to be,
Sir,
Your most obedient servant,

Director of Public Health

PAJ

Letter No 1183 dated 3 ? 1942 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Re Drainage of Turuvekere Town

I have the honour to submit herewith an estimate amounting to Rs 25,500/- being the cost of the comprehensive drainage scheme of the above town for favour of your kind information and forwardal to the local body

The construction of the main drains is the immediate necessity of the town, since there is heavy stagnation of the sewage in this area, and this work proper is estimated tocost Rs 6,130/- Providing necessary overhead and other charges, the cost of this item of work will be about Rs 7,000/- and the Municipality would be well advised to undertake this work first, the outfall works may be taken thereafter and the street drains last, of course, commencing from the congested parts of the town

According to this programme, the works could conveniently be spread over about 6 years, the main drains taking two years, the outfall works one year, and the street drains three more years, so that financing the scheme will not be a heavy strain on the municipal finances

So far as the treatment and disposal of the sewage is concerned a sedimentation tank of the standard design is proposed at the end of the main valley and the effluent is proposed to be treated on land for which acquisition of the required extent of land (about 3 acres) is provided for in the project In the other two valleys, however the quantity of sewage is so little that only sewage drains are provided at the tail end

Re drainage scheme of Turuvekere town

With reference to your letter No C 653-2 dated 14/16th February 1942 on the above subject, I have the honour to forward herewith the estimate duly countersigned by the President, Minor

(13)

Municipal Council, Turuve ere a id to state as follows

The President states tha.t the Municipal Council have at their meeting held on 7 4 42 resolved t at sanction of Government may be obtained to the scheme a id the same be completed in a period of ten years As regards the construction of the main drains involving a cost of Rs 7,000/- being the immediate necessity of the town, the Council have also resolved to complete this work within a period of two years and that the cost of the entire scheme ma be met both by Government and the Municipality in equal shares nd that half the cost towards the main drains would be met out of the Municipal funds and a sum of Rs 750/- being the balance out of the investments held in S B deposits during the aid two years

As for the balance of the Municipal quota viz , Rs 9,250/- this would be met out of the Municipal funds during each ear (within the remaining period of eight years) as the entire scheme is proposed to be completed in ten years The Municipal Council have an investment of Rs 10,591-11-2 in S B Deposits and the financial position of this Minor Municipality is found

In these circum tances, I request that a recommendation may kindly be made to Government for according sanction to the scheme and to the grant of half the cost of the entire scheme as Government grant and the Municipal quota being met as proposed by the Council

Re Drainage scheme of Turuvekere Town

With reference to your letter No C 653-2 dated 14/16th Februar 1942 on the above subject, I have the honor to forward herewith the estimate duly countersigned by the President Minor Municipal Council Turuvekere and to state as follows -

The President states that the Municipal Council have at their meeting held on 7-4-1942 resolved that sanction of Government may be obtained to the scheme and the same be completed in a period of ten years As regards the construction of the main drains involving a cost of Rs 7000/- being the immediate necessity of the town the Council have also resolved to complete this work within a period of two years and that the cost of the entire scheme may be met both by Government and the Municipality in equal shares and that half the cost towards the main drains would be met out of the Municipal funds and a sum of Rs 750/- being the balance out of the investments held in S B deposit during the said two years

As for the balance of the Municipal quota viz Rs 9250/- this would be met out of the Municipal funds during each year (within the remaining period of eight years) as the entire scheme is proposed to be completed in ten years The Municipal Council have an investment of Rs 10,591-11-2 in S B Deposits and the financial position of this Minor Municipality is sound.

In these circumstances, I request that a recommendation may kindly be made to Government for according sanction to the scheme and to the grant of half the cost of the entire scheme as Government grant and the Municipal quota being met as proposed by the Council

---

ORDER NO ∝. 9E-101, dated 41-14

Dated, Bangalore, 5-E July 1943

1 Government are pleased to sanction the first stage of the scheme for the construction of the main drains in the Turuvekere Minor Municipality at an estimated cost of Rs 7000/-

2 The work will be spread over a period of two years during the years 1943-44 and 1944-45

3. The cost will be met in equal proportions by the Government and the Turuvekere Minor Municipal Council

4 The municipal quota of the cost will be met out of the general resources and the Savings Bank Deposit at the credit of the Municipal Council

5 The Government share of the cost amounting to Rs 3500 will be met out of the Town Improvement Grants for the years 1943-44 and 1944-45 at the rate of Rs 1,750 during each year
